MEET FOUNDER & CEO, MARIE

Marie Phillips, CPA, is an innovative cloud accounting industry leader who founded Connected Accounting to reach beyond the norms expected of a financial services firm. Her passion for problem-solving, love for efficient processes, and caring support for her clients are built into the DNA of her practice.

“I think the thing I personally appreciate most is how quickly they respond and how intimately familiar they are with our company. Their responses are specific to us, and not a general answer.”

Jane Iovine
Wood Oil Company of California

WHY US?

SAVED
\$10K

Saved a client \$10k a month by automating their accounting processes and technology.

SAVED
\$50K

Saved a client \$50k per year by freeing up the CFO's time to focus on strategic growth, allowing them to double their revenue from \$3M to \$6M in 12 months.

SAVED
\$280K

Reduced a client's outstanding receivables from \$300k to \$20k in 90 days by automating collections and implementing e-payment options.
